Release Notes

BlueSpice 2.27.0

BlueSpice Copyright 2016 by Hallo Welt! GmbH
http://www.bluespice.com
http://www.hallowelt.com

BlueSpice 2.27.0 is a minor and maintenance release.
This is a stable release.

Notable new features

New features

- Page Assignments: Assign people and groups of people to pages, e.g. as responsible editors. Supersedes ResponsibleEditors.
- Farm: Add metadata (like descriptions and tags), disable old wikis, organize your wikis in groups
- Farm: Add central search across all farmed wikis
- Testsystem mode: visually indicate when a wiki is a testing system
- Disable users: Instead of user deletion, you can now disable the users while keeping their full record.
- User-group self-service: Certain user groups can now assign users to groups without having to be sysops.
- Managers: separate rights per manager. Certain user groups can now access a selection of administrative tools without having to be sysops.
- UX improvements: Confirmation dialogues are more unobtrusive now.
- Bookmaker: add pages directly to a book from the more menu
- FlexiSkin: manage uploaded images
- Removed/deprecated WantedArticles, FeedbackHelper, WikiCategoryTagCloud, GuidedEditing and WidgetBar
- Track usage statistics: know how often a certain feature is used in your wiki
- Namespace-specific notifications: get notified about actions in the wiki on a namespace basis
- Semantic properties: Use data from BlueSpice as semantic properties
- Reminder: several reminders per user and article, also assign to others
- ProDistribution: Added Extension:DrawioEditor and Extension:NativeSVGHandler
- Distribution: Added BlueSpiceTagCloud
- CategoryManager: A new manager to organize categories via user interface
- Showtime: A HTML video player

**Newly packaged extensions**

Translation

BlueSpice is translated at translatewiki.net. Many, many thanks for your contributions! Special thanks go out to Raimond Spekking and Siebrand Mazeland for all the i18n reviews.
Standing on the shoulders of giants

We would like to thank all the people around MediaWiki. You've created a wonderful piece of software. Thanks a lot!
